

Erratum

In the article titled “Allele-specific role of ERBB2 in the oncogenic function of EGFR L861Q in EGFR-mutant lung cancers” (*J Thorac Oncol.* 2021;16[1]:113-126), the top panel (ERBB2) of figure 2D was inadvertently duplicated, with the WB-ERBB2 results for the HBECP53 cells having been unintentionally also pasted under 3T3. The corrected Figure 2D is below. The results are qualitatively the same and the conclusions remain unchanged.
